

L0058/88

Excerpt from August 16, 1984 - response from the Progressive Conservative Party addressed to Chinese Canadian National Council:

" The Progressive Conservative Party supports the introduction of an all-party Parliamentary resolution which would recognize the injustice and discrimination of the Head Tax and the Chinese Immigration (Exclusion) Act. Such a resolution would also recognize the suffering of the Chinese community in Canada that resulted from these actions.

The Progressive Conservative government would look forward to having discussions with representatives of the Chinese Canadian Community regarding appropriate remedial action and the specific matter of financial compensation. " (emphasis added)
